THE AUSTRIAN JOURNAL FOR ELECTRONIC ENGINEERING SINCE 1977

ELEKTRONIK REPORT

elektronik report is the leading medium for electronic engineering and the electronics industry in Austria. The only electronic journal that offers both manufacturers as well as distributors an informational platform on which new products, systems and services are presented to the sector. Current trends, technological developments and innovations round off the coverage.

The Austrian journal for electronics

CIRCULATION: 6150 copies/ 6 times a year

READERS: Decision-makers from production, construction, purchasing and quality management, focusing on the industrial electronic and electric components

Dear advertisers,

electronic components and system are gaining value every day. In the industrial production as well as in consumer products, areas of application and demand are growing rapidly. But one aspect not changing, is the importance of expertise and information for the producing industry, distributors and it has been provided by the elektronik report since 1977.

**We understand electronics.
We understand decision-makers.**

Is it already working?

We are talking about your marketing. You know: the one, where unfortunately even Henry Ford did not know, which 50 per cent of the invested capital is poorly spent. Today we know better. Digital tools make the effect and the result of B2B-campaigns more measurable than ever before. B2IMPACT is the new agency of WEKA Industrie Medien and with Content, Performance and Creation it reaches exactly the communication objectives that you have defined. And Henry Ford? Most probably we could have helped him as well.
